

**“56% OF PROJECTS STILL FAIL TO DELIVER VALUE ON-TIME & ON-BUDGET - MOST DUE TO INTRANSPARENCY & MISSING FOCUS”**

ACCORDING TO MCKINSEY & COMPANY

## MANAGE PERFORMANCE

- Gain a **birds-eye perspective** onto the health of your initiatives & facilitate **Status Reporting** feedback on all levels - from the largest portfolio to the smallest work package
- Simple traffic light logic** applies, which is great for getting **periodic bottom-up feedback** & judgement by team members
- No need anymore** for (inconsistent) email status updates, presentation decks, etc. – **all now living on ONE Platform**, with a structured history & audit trail

## MANAGE PORTFOLIOS

- To craft, keep an overview & act quickly on portfolio structures, the all-new Portfolio Composer environment is available now
- Graphical representation** of initiative hierarchies, timelines, incl. visual editing through Drag & Drop, Zoom, etc.
- Seamless navigation** to Project Designer & Performance Cockpit
- Creation of workflows** (Changes or Incidents) with reference to a portfolio member right there

## ABOUT US

**INSTANT EDGE** helps businesses to **integrate & automate projects & processes** of their digitalization initiatives onto a single cloud platform.

Digital enterprises of the near future are much more project-centric than they are today, requiring good **governance and operational support** to deliver those initiatives successfully – that will only work if the right processes run tightly in a well-orchestrated fashion.

We bring together processes that actually belong together, onto **ONE single platform**: a **Perfect Fusion™** of **Business Process Management (BPM)**, **Project Portfolio Management (PPM)**, and **IT Services Management (ITSM)**
